

Doug Adkins – “Don’t Question Love”

Some love stories don't start with fireworks. They start with a county fair, a Ferris wheel, and a seat that just happens to be open.

“**Don't Question Love**” is a cinematic, small-town love story inspired by a moment that changes everything — a smile, a hand held, and a lesson passed down from a mamma who knew a thing or two about the heart.

A young man with his mind on other things — **Hunting. Fishing. Football.** No time for love... until love finds him anyway.

Love doesn't ask permission. It doesn't make sense. You can't fight it.

At its core, “**Don't Question Love**” is about surrender — letting go of logic and letting the heart lead the way.
